Company Profile

About Us

Founder members of the Company are actively involved in the Company business since last 20 years. Coral Offshore and Diving Services was incorporated in Dubai and Ajman and have its Branch offices in Oman and India, which is main center of our services and other benefit is that all major ports are situated nearby us.

Ideology behind the formation of the Company was to provide all sorts of quality, cost effective and standard services to the owners as an extended arm of the owner, rather than a mere service provider, therefore we have assembled a team of highly expertise and skilled professional in their respective field, state of art equipment's and world class certification to serve the clients and provide all our integrated services at single source.

We are continuously striving for the excellence and our business priority is to maintain and earn the confidence and the loyalty of our clients by providing them our best services on the short notice and it's our immense pleasure to introduce our self that we have been recognized as one of the best service provider in India, Middle east and South East Asia.

In the existing economic scenario operating cost has to be kept under control and the Coral Offshore and Diving Services has always managed to achieve that and help the customer to stay afloat.

We ensure to provide owners safe and economical operation of their vessels / projects complying with the international safety and environmental protection norms and aspire to be client's first choice.

Company Profile

Director's Profile

Mr. Talal Nasser Al Ismaili – Managing Director & CEO

Graduate Engineer in telecommunications from Glasgow Caledonian University. He worked for Oman Telecommunications Company (Omantel) for long time as Senior specialist Submarine Cables in Wholesale Business Unit of the Organization. During his period in Omantel he was fully involved in all the activities of submarine cable laying for the national and International projects that Omantel has invested in.

Being very senior submarine cable laying Specialist, he was personally involved in project permitting from Oman Telecommunication Regulatory (TRA) including all other concerned Government institutions. He was taking care of National/International Survey, Installation and repair of submarine cables, vessel clearance and permitting, construction of submarine landing/terminal station and cable fronthaul infrastructures including beach manholes. Installation of submarine land cables, Ocean ground bed and terminal stations. He worked as Company site representative on the submarine cable laying vessel and Supervise/monitored all inspection, repair and maintenance jobs including ROV, Offshore trenching, submarine cable burial and Diving operations on board.

He was fully involved project activities of the following Submarine cable projects – SEA ME WE3, AAE1, FALCON, TWAI, MENA, GBI, EIG, BBG, POI, OMRAN, EPEG, G2A and completed more than 126479 Kilometers of Submarine cable.

Mr. Talal is member of International Cable Protection Committee (ICPC), An International body responsible for all seabed users). He has also worked with other International parties with in consortiums in different working groups such as marine working group, Technical working group, Procurement group and Contractual Co-ordination team tracking project timelines and milestones..

Company Profile

Director's Profile

Mr. Manoj Dhankhar - Director Operations
